Education

- **Patliputra University (2021-23)**
  Master Computer Application (MCA)
  Percentage: 80%
- **Magadh University (2017-20)**
  BSC-IT (Information Technology)
  Percentage: 80%

Skills

- **Programming Language**
  C, C++, Java (Core and Advanced), Python, R Prog., Go Lang, HTML5, CSS3, JavaScript, DSA.
- **Libraries/Frameworks**
  React Js, Spring Boot, Hibernate, *VS Code, Eclipse, Tailwind CSS, Bootstrap*
- **Tools/Platforms:** *Vite, Docker, Rapid API, Maven, Git, GitHub*
- **Database:** MySQL
- **Other:** SDLC, data structures, algorithms, Oops, DBMS, SQL, Microservices.

Strengths

- Strong DSA concept and Enjoy Programming Challenge.
- Easily Adaptable to any new technology with minimum training.
- Enjoy Problem solving, Teamwork, Communication and a willingness to learn.

PROFILE

- As a recent MCA graduate with a strong academic background and a passion for full-stack development, I am eager to embark on a career as a Full Stack Java Developer.
- My academic coursework, coupled with hands-on experience in building web applications during internships and personal projects, has honed my skills in Java, Spring Boot, HTML, CSS, JavaScript and React.

INTERNSHIP

CODSOFT | Java Programming   Virtual | 5/10/23 - 5/11/23
- ATM interface: Designed a Java-based ATM interface with withdrawal, deposit, and balance inquiry features.
- Student Grade calculator: Create a Java application for calculating student grades with features for inputting scores, calculating averages, and generating reports

BHARAT INTERN | Full Stack Developer Intern   Virtual | 10/10/2023 - pursuing
- Registration Form: Develop a registration form to sign up and store user information using HTML, CSS, java in MYSQL.
- Blog Website: Create a blog website for reading and writing posts using HTML, CSS, Java and MySQL for data storage.

PROJECTS

Music Player
- Demo: music-player-liard-two.vercel.app/
- Creating a Music Player using a circular linked list in combination with HTML, CSS, and JavaScript.
- Music Player with repeat, repeat-one and shuffle mode with volume control and music list feature also present.

Weather App
- Demo: react-weather2-taupe.vercel.app
- Creating a weather app using Vite + React, OpenWeatherMap API, Tailwind CSS and React Hooks.
- Weather API used to fetch real-time weather data based on the user's location input. It display temperature, humidity, and weather conditions.

Movie App
- Demo: movix-five-tau.vercel.app
- Movix is the best movies database application available on YouTube with top notch frontend technologies such as React, Redux, React Hooks, SCSS, React Router and Rest API.

Student Registration
- Demo: https://vaishali22071997.github.io/Student_Registration/
- Creating a simple Student Registration CRUD web application using Spring Boot Spring Web, Spring Data JPA, Thymeleaf, MySQL.

CERTIFICATES

- Full Stack Java Developer -Java + JSP + Restful WS +Spring
  Udemy | 18/10/2023
- Java Programming (Internship Completion Certificate)
  CodSoft | 5/11/2023
- Training on Python Programming
  Bolt IoT | 10/6/2023
- Full Stack Web Development
  PW | pursuing
